## Telephone Co. Leases Ground Floor of 906 Main St. for Office

## Business Dept. Will Occupy Room Vacated by Sabin Gift Shop

The Illinois Bell Telephone Company has leased ground floor space at 906 Main Street for use as a new, enlarged, and more convenient business office in Antioch. It was announced this week by J. M. Littler, manager.

The space was leased from Mrs. Antoinette Fields of Antioch. It was previously occupied by Maud E. Sabin's gift shop and will now be remodeled.

The new telephone business office will be more than three times larger, and will be more conveniently located nearer the center of town than present quarters at 970 Victoria Street. Larger restroom facilities for employees will also be made possible by the change.

Until the move is completed, telephone customers may continue to pay bills and transact other business with the company at the present business office, Littler said.

## Plaque Honoring Vets Who Lost Their Lives In Service Dedicated

A plaque bearing the names of Antioch veterans who lost their lives in military service was dedicated last Thursday, Armistice Day, at the village park.

Gold Star mothers were honored at this service which followed a parade of veterans organizations, their auxiliaries, and students.

Music for the parade was furnished by the Antioch High school band, and the Sons of the Legion drum and bugle corps.

The dedication address was made by the Rev. E. William Strauser of the Episcopal church. Don Berkeiser, representing the Lions club, was master of ceremonies and he and Cmdr. Ray Morton of the American Legion, and Cmdr. Herman Meinersmann of the Veterans of Foreign Wars unveiled the plaque.

Presidents of the American Legion, auxiliary and the V. F. W. auxiliary were recognized and the commander of the V. F. W. and the representative of the Lions club were introduced.

The program closed with the salute by the firing squad and the sounding of taps by Legionnaire W. V. Lahli.

The Gold Star mothers of the community were honored guests of the American Legion and its auxiliary at the Armistice service held at the Antioch Township High school Nov. 10 at 2:30 p.m. They were presented to the student body by Mrs. Lester Heath, Gold Star chairman of the auxiliary.

There was open house Armistice Day at the American Legion home after the morning service.

## Scout Benefit Movie, "Secret Land" Plays To Full House Wed.

The "Secret Land," a pictorial, photographic record of the Byrd Antarctic expedition, presented at the Antioch Theatre Wednesday and tonight by the Antioch Boy scouts, played to a capacity house on Wednesday and an even larger crowd is expected tonight.

Scout officials reported that the theatre was filled before eight o'clock Wednesday evening and that two showings of the picture found all seats filled. Matinees on both afternoons are on schedule.

All proceeds from the sale of tickets, with the single exception of the federal amusement tax, will be turned over to the Lella J. Anderson Memorial Foundation, which body will use the money obtained for equipment and maintenance of the Scout home.

Molter Lost Without Paper  
William H. Molter, of Bristol, writes from Fort Lauderdale, Fla., where he is spending the winter that he feels lost without the Antioch News and wants it sent to him there. He had a fine trip and is well located there. Business is booming in Fort Lauderdale.

## Swanson To Entertain Antioch Theatre Patrons With Second Musicale

Fred B. Swanson, owner of the Antioch theatre, will present his second annual musicale for his patrons on Wednesday evening, Dec. 1, at 8 o'clock.

In an effort to equal and exceed the quality of last year's entertainment, Swanson is obtaining some of the top stars of radio and stage. The local theatre owner conceived the idea last year of giving his regular patrons and his friends a treat in entertainment at no cost. Only adults were invited. The event was such a success that he is repeating it, taking care this time to invite many whom his theatre last year couldn't accommodate.

## Legislators Invited to Meet With Publishers In Antioch on Jan. 14

Lake County legislators will be invited to attend the annual meeting of the Lake County Newspaper Publishers association in Antioch on Friday, Jan. 14. The organization decided to extend an invitation to the lawmakers, at their November meeting in the Parkview Lounge, Round Lake, Friday night. A. N. Solomon of the Round Lake Bulletin, was program chairman.

It was voted to accept the Round Lake News as a member. This weekly was purchased last February by Publishers Wickman and Ahlman of the Grayslake Times. W. L. R. Taylor of the Lake County Civic League, gave a short talk. He discussed the tax situation in Lake county, stating that another increase in taxes was a surety next year unless governmental bodies adopted a retrenchment policy. The association agreed to publicize the prospective increases in their respective localities. A. H. Haggerty was named asked to inquire into fees paid for publishing administrators' notices. Secretary Charles H. Miller read a letter from Atty. Gen. George Barrett, setting forth governmental legal publication requirements. The organization will cooperate with similar groups in an endeavor to obtain a readjustment of fees for legal notices.

Howard Gaston of Antioch, was named program chairman for the annual meeting Jan. 14 in Antioch.

## Cub Scout Meeting on Tuesday Evening Final Before Charter Request

A final meeting of boys eligible for Cub Scouts will be held at 8 p.m. Tuesday, Nov. 23, before official organization of the pack.

Two of the necessary meetings already have been held and at the last meeting 30 boys, enough to organize five or six dens with a chief for each den, were present. More are expected at Tuesday's meeting.

An application for a chapter will be made following the next meeting.

All boys between 9 and 12 years who wish to join and have not yet registered are asked to come and bring their parents to the next meeting. Dens will be formed according to where the boys live.

The Lions club is the sponsor of the organization.

## Cummings Move Into New Home on Rt. 45

Mrs. Elsa Cummings, the victim of a fire some months ago, when all the clothing and other effects of the family were destroyed, has moved into a new house provided by Ravenscroft Farms, where she is employed. The new home is located on route 45, just north of route 173.

Many gifts have been received by the family from listeners of the Lou Costello radio show. A broadcast of the heroic rescue of a younger child by Patsy May Cummings, 4 years old, was a feature of the show some weeks ago. Patsy rescued her young brother from the flames which consumed the trailer in which they had made their home. Mrs. Cummings was absent when the fire occurred.

Gifts of money raised through the efforts of the Antioch News and the Lions club of Antioch have been used for furnishings for the new home.

County T. B. Secretary Dies  
Miss Orpha White, executive secretary for the Lake County Tuberculosis Society died Sunday in St. Theresa hospital after a long illness.

## Dalgaard Closing Grocery and Buys Lake Villa Store

## Tenders Resignation as a Trustee of Village As of Dec. 7

W. A. Dalgaard has purchased the Charles Peterson I. G. A. grocery store at Lake Villa and is closing out his stock of goods at his Antioch store 920 Main st.

Dalgaard expects to dispose of all of his local stock and fixtures this weekend and to assume charge of his new store at Lake Villa on December 1.

He has obtained a residence there and will move next week.

In closing his Antioch store, Dalgaard has ended a business establishment of 17 years duration. His father, A. C. Dalgaard owned it for 15 years and after being associated with his father much of that time Winsor took over two years ago.

The store has enjoyed a good patronage, but in the Lake Villa location there is much more room and a larger stock for an increased volume of business.

Mr. Peterson is retiring from business after 28 years.

Dalgaard expressed his appreciation over the patronage given his local store and has invited his customers to patronize him at Lake Villa.

Because he is moving from the village, the groceryman is resigning his office as a village trustee. He will meet with the village board for the last time on December 7.

The Dalgaard family in their many years of local residence have won many friends and regrets are expressed over their leaving. That they will not be moving far away is an advantage in that it will give opportunity to see them back often.

## Telephone Co. Asks 16 Per Cent Increase In Rates in Antioch

Illinois Bell today asked for a 16% increase in its total income to be spread among all telephone rates in the 323 Illinois communities it serves. In a petition filed with the Illinois Commerce Commission in Springfield, immediate relief was sought, from "inflationary pressures." The alternative cited by the company was that it "will be unable to furnish adequate and efficient telephone service and unable to raise necessary additional capital."

New prices would be applied to all types of service and equipment, and to many long distance calls. Although the rates would produce a 16% increase in the Company's total income, no specific per cent increase can accurately characterize all individual bills, because of varying local and toll usage, the Company stated. The Company also noted that over 40% of the increase asked would be paid out in the form of state and federal taxes.

In Antioch residence increases average 2 1/2 cents a day. Monthly charges for all classes of local residence service would be increased 75 cents monthly and business \$1.25 cents monthly.

All other prices would be increased, including private switchboards, mileage charges, service (Continued on page 5)

## Funeral Services For Mrs. Annie Brown Held Saturday

Annie Brown, 56, Wonderland Camp, Camp Lake, Wisconsin, passed away at her home Friday, November 12, following a lingering illness. She was born September 16, 1892 at Bonavista Bay, Newfoundland, for the past seven years had lived at Camp Lake and previous to that in Detroit, Michigan. She was a member of the Salvation Army.

Survivors are her husband, Edward, custodian at Wonderland Camp; a daughter, Capt. Marie Brown, of Minneapolis, Minnesota; four brothers and seven sisters.

Funeral services were held Saturday at 4 p. m. from the Strang Funeral home, with the Rev. Charles Longley in charge. Her body was shipped to Detroit, where another service was held at one p. m. Monday from the Harper and Mulligan Funeral home. Capt. Roland Quinn of Kenosha officiated. Interment was in Grand Lawn Cemetery, Detroit.

## Will This Be the First Trip to the Moon?

## Revival of Lake County Historical Society to Be Planned Next Tuesday

A meeting to revive the Lake County Historical society of which there is but one official member surviving will be made Tuesday, Nov. 23, in a public meeting at Lake Forest.

The meeting will be held at 8:15 p. m., in Lois Durand hall, North Campus, Lake Forest college, and is the result of a call by Robert Ticken, Belvidere rd., Libertyville, to re-establish the society so that present records may not be lost.

The society was formed in 1906 and gathered a wealth of material which is now in the possession of Mrs. Bess T. Dunn of Waukegan, the registered agent and sole survivor of the officers.

A canvass of several historically minded Lake county citizens, of the Chicago, and Illinois Historical Societies' administrative officers revealed, according to Ticken, the following facts:

Most communities or counties have historical societies.

Most successful historical societies have been supported by endowment or governmentally.

When a society is fortunate enough to attract a few interested persons it is possible to interest the public sufficiently to participate in the society's activities.

Mrs. Bess T. Dunn, the only survivor of the non-profit historical society formed in 1906 is anxious to co-operate in reactivating the society.

Many of our citizens have expressed a desire to maintain an historical society and indicate their willingness to assist in its development.

Mr. Paul Angle, director of the Chicago Historical society will attend Tuesday's meeting.

## Basketball Season to Open Wednesday Here Against Northbrook

With Buchta and Poulos as the only regulars from last year's team back in the lineup this year, Coach Maurice Kruzan is not too optimistic as to a victory when Antioch Township High school opens its season next Wednesday evening against Northbrook here.

Much better handling of the ball will be necessary before team work can be developed, according to appearances in practice this week.

The underclassmen of the two schools will take the floor at 7:15 p. m. Wednesday to battle for honors first, and the varsity game will follow. Coach Kruzan does not yet know what his starting lineup will be, but he will be using Buchta at center and Poulos at guard.

Not much is known of the strength of Northbrook.

## St. Peter's Choir Will Sing Nov. 28 over WKRS

St. Peter's church choir will sing over WKRS, the Waukegan FM station from 2:30 to 3 p. m. Sunday, Nov. 28, under the direction of Mrs. A. J. McGreal.

Members of the choir are Mesdames Florence Yancey, W. A. Birn, Florence Eckert, Frances Wilmore, Kay Berkeiser, Carl Pachay, Rose Masopust, Norma Grafner, Helen Thompson, Anne Rogers, Irene Rogers, the Misses Rose Ann McGreal, Theresa Burns and Irene Pachay, and the Messrs. Dick Rogers, John Dupre, Ed Weiler, Ed Cranley, Peter Freund, Marshall Hayden, Thomas Burns and Otto Grafner.

## Curtain Rises Tonight On Junior Class Play, "Stranger in the Night"

First of the two performances of "Stranger in the Night", will be given this evening by the Junior class of the Antioch Township High school in the school auditorium.

Advance ticket sales indicate there will be a large attendance both tonight and tomorrow night when the play will be repeated.

Dress rehearsals this week primed the members of the cast for their appearance before the public this evening and Miss Jeannette Darrough, supervisor, believes that the students will give a good performance.

The play is a mystery comedy in three acts, with a cast that includes 12 persons. They are Patricia Keleher, Joanne Midgley, Robert Small, Melford Stillson, Betty Jean McDougall, Robert Dieball, Mary Rose Webb, James Kennedy, Clara Greenlee, Jack Mahoney, Jacqueline Onstad and Barbara Barthel.

## Lake County to Raise \$42,000 in Christmas Seal Sale This Season

To carry out the expanded tuberculosis control program of the Lake County Tuberculosis Association planned for 1949, the 1948 Christmas Seal Sale must raise \$42,000. Mrs. Mabel McCullough, Seal Sale Chairman announced today at Seal Sale headquarters, 15 N. County St., Waukegan.

The quota was set, she explained, on the basis of a thorough study of the association's 1949 projects and represents the minimum needed to carry out such activities as clinics, school tuberculin testing programs, industrial x-ray surveys being planned now. These mass x-ray surveys will start in Round Lake November 29 to December 3 and in Waukegan December 6 to 18. Other mass surveys are being planned in other communities of the county after the first of the new year.

"We are counting on the generous cooperation of Lake County residents, thru the purchase and use of Christmas Seals, to make possible this important health program."

Mrs. McCullough continued, "If the people of this county respond as enthusiastically as they have in the past, we shall be able to carry out our plans to make this a healthier community in which to live."

The Christmas Seal Sale opens officially on November 22 when close to 38,000 letters will be mailed to Lake county residents. It is held in conjunction with the 42nd annual nationwide Christmas Seal Sale.

## To Publish News Wed., Next Week

Due to the Thanksgiving holiday next Thursday the News will be published on Wednesday in order to facilitate mailing. Advertising and other copy should be in our hands one day earlier. The News will be on the stands Wednesday evening.

Richmond Editor Ill  
Albert L. Johnson, publisher of the Richmond Gazette is under treatment for a dropical condition at the Sherman hospital in Elgin.

## Antioch 4-H Members Honored at Achievement Program Last Saturday

## Betty Jean McDougall and Warren Wells Are Outstanding

More than 500 4-H club boys and girls, their parents and leaders, met at Grayslake High school Saturday evening at the 1948 Achievement program. Features of the program were a Quiz Program, presentation of awards by Mrs. Helen Volk, home adviser, and Mr. Ray T. Nicholas, farm adviser, an impressive colored movie "Power Behind the Nation," and refreshments of apples and candy bars.

Floyd Hutchings won the coveted title of Junior Farm Champion in Saturday night's program when the 4-H club presented its own version of NBC's national network program, R. F. D. America.

As winner, Floyd not only receives a Junior Farm Champion "County Question Editor" of the certificate signed by Ed Botcher, popular national radio show, but also a fine 4-H Memory Book.

Runner-up was Betty Jean McDougall, of Antioch, who was defeated only in the bitter last round of the fast question and answer bout. Also making a good name for themselves, both in the informational and fun departments, were Madeline Murrie and Warren Wells. The losers received a 4-H Eversharp pencil as a prize.

Capably handling the tough job of "County Question Editor" was Mrs. Warren Chard, Mrs. Robert Murrie took the part of announcer, Norm Barry and Mrs. LeRoy Kane and Mr. Robert Paddock were score keepers.

Questions for the local program were supplied by the regular R. F. D. America staff in Chicago. The program was such a success it is anticipated that the network staff will provide additional scripts and question lists for future programs here.

All 4-H members who completed their work received certificates, seals, pins, and premium awards for exhibiting at the county fair. Special awards were given the Antioch members as follows:

State Outstanding club girl members—Betty Jean McDougall, who also received a record contest ribbon, and the county dress revue medal. Jean Hawkins of the Antioch Aces also received the dress revue medal.

County project honor member certificates were issued to Adella Rentner, of the Antioch Acres and Sylvia Beelow, Mary Curnes, Jean Hawkins, Mary Herman, Patsy Ann Keulman, Betty Jean McDougall, Ann Mattson, Charlene Nelson, Shirley Nelson and Nancy Shehan.

Farm Adviser Ray T. Nicholas announced Warren Wells of Antioch, No. 3 as one of the State Outstanding Project Honor members and the No. 3 club as having the distinction of 100 per cent completion. The other Antioch clubs were 1948 Achievement clubs.

## Legion, Lakes Theatre Sponsor Benefit Shows For Zemanek Triplets

A benefit for the triplets of Mr. and Mrs. John Zemanek of Petite Lake has been planned by the Antioch Legion post No. 748 and its Auxiliary with co-operation from the Lakes Theatre where the entertainment will take place.

Tickets are being sold for benefit shows at the Lakes theatre on the evenings of Wednesday and Thursday, Dec. 15 and 16. Turkeys will be given away between shows.

The Zemanek triplets born in Waukegan recently are thriving but a home and supplies for them are needed. Mr. Zemanek, a laborer, wasn't prepared to take care of that many at one time. Forced to find another place of residence, the parents of the triplets who have another child, found themselves handicapped in more ways than one, and the veterans organization has stepped in to help in this meritorious situation. The public is asked to participate freely in the purchase of the tickets.

William E. Brook will act as treasurer in handling the fund.

Now Real Estate Broker  
Charles Cermak is now a full fledged real estate broker by reason of his passing of the examination of the state board.

### The Smoker's Responsibility

The cigarette you just reached for is more than a little paper tube filled with tobacco. It is a potassium chlorate torch that will burn at a high heat until it is consumed to ashes. The chemical is mixed with the tobacco in order to make it burn steadily.

The significance of this should be clear to anyone. The apparently harmless cigarette is one of the greatest menaces to life and property when carelessly handled. Last year, careless smokers were responsible for 130,000 fires—many of which caused death, injury and high property damage. Will the total be greater this year?

The rules for safe handling of cigarettes, and all other tobacco products, are simple enough. Always put them out in an ash tray or some other safe container when you're done with them. Never throw a burning butt from a car—this particular type of carelessness has caused some of the worst forest fires the country has known. That's one reason the car makers put an ash receiver in cars. And, above all, don't smoke in bed. A cigarette will set bedding afire far more quickly than most of us realize—as many a smoker has learned to his sorrow. And smoking in bed has sent a legion of smokers into the hereafter prematurely.

So, if you smoke, accept the responsibility that goes with it—the responsibility to use tobacco safely, in accordance with the rules.

### Government Doesn't Create

According to Governor Dewey, "if it had been up to Washington to develop . . . our electrical industry, you can be pretty sure we'd still be using kerosene lamps."

You don't have to be a Republican or a Democrat to realize the truth of that. All of the hoop-dee-doo that has surrounded the government's multi-billion dollar ventures into socialized power has obscured the fact that government hasn't created a single, solitary thing. The private utilities of this country pioneered electrical development when skeptics

thought the electric light was only an amusing novelty. They pioneered central station power, often at a great financial risk. They perfected long distance transmission and farm electrification before the REA and similar Federal agencies existed even in imagination. They harnessed water power and put it to work for the good of the country decades before the government plants were built.

Socialized electric plants and dams are actually examples of the ingenuity of private enterprise. The generators and all the rest of the intricate equipment they use are made by free American industry. They were invented by private citizens, not by bureaucrats working for some government agency. Government can imitate—but it seldom creates.

Cheap and abundant electric power caused an industrial and agricultural revolution in this country. It has an intimate and direct bearing on our living and working standards, our employment, our wage envelopes. And it was developed every step of the way by private enterprise. Today, as in the past, private enterprise is going ahead with the job of supplying us with over 80 percent of all the electricity we use. And the alleged achievements of tax subsidized socialism pale to insignificance beside it.

### The Forgotten Men and Women

William T. Farley, president of the Association of American Railroads, recently said that "the inherent economy in transportation by rail will become of increasing importance to the nation as it moves forward to its great destiny."

He then buttressed this with some revealing figures concerning railroad performance. The lines actually move, on the average, one ton one mile with about two ounces of coal or two tablespoons of fuel oil when the work is done with steam locomotives, or with only a teaspoonful of diesel fuel when locomotives are used. "No other form of land or air transportation," he added, "even approaches such an output of service per pound of coal or per gallon of oil."

The high efficiency of American railroads has been largely the result of the tremendous investment made in them. Since the first war, the investment for each railroad worker has gone up from an average of about \$12,000 to \$20,000. And in that same period, the average annual earnings of railroad employees have virtually doubled, while the hourly rates of pay have risen even more.

The only men and women connected with the railroads who have not shown gains are the hundreds of thousands of citizens, including railroad workers, who have poured their savings into railroad properties. Last year, the rate of return on the net investment was less than 3 1/2 per cent—and out of that the railroads had to meet their fixed charges as well as provide for essential improvements. It is the old story of wage, material and other costs going up faster and farther than railroad rates. And it is the reason why railroad rates must be periodically adjusted so that the industry will be financially able to make its fullest contribution to the national well-being.

## SALEM

Rev. and Mrs. Nicholls and children spent Saturday in Chicago.

Mrs. Charlotte Bloss spent last weekend at Delavan with her daughter and son-in-law, Mr. and Mrs. Harold McSweeney.

Mr. and Mrs. A. G. Hartnell, Mr. and Mrs. E. H. Hartnell were dinner guests on Sunday of Mr. and Mrs. Frank Wheeler, Silver Lake.

Mrs. George Belmer is a patient at the Memorial hospital, Burlington.

Mr. and Mrs. Donald Imrie and children, of Lake Mills, and Mr. and Mrs. Clarence Imrie and children, of Burlington, spent Sunday with Mr. and Mrs. Robert Imrie.

The Priscillas met on Thursday afternoon at the home of Mrs. Janet Fletcher. There were 35 persons present. Mrs. Eunice Sandin, of Kenosha, gave a very interesting talk on a recent trip which she and her husband took to Sweden. The next meeting will be held on Dec. 2nd, at the home of Mrs. Minor Hartnell.

Mr. and Mrs. Ogden Fletcher and two sons, of Chicago, spent the weekend with Mrs. Janet Fletcher.

Mr. and Mrs. Byron Patrick drove to Baraboo, Wisconsin last weekend and called on Mr. and Mrs. August Drom, of New Lisbon, on the way home.

Mr. and Mrs. David Elfers attended the card party at Trevor on Saturday evening.

Mr. and Mrs. Alfred Hackbart, of Kenosha, were dinner guests on Sunday of Mr. and Mrs. Alfred Schmidt.

Donald Peterson, of Bassett, spent Sunday with Mr. and Mrs. Robert Patrick.

Mr. and Mrs. Byron Patrick spent Sunday evening with Mr. and Mrs. Ray Patrick and son, Michael, of Kenosha.

Mr. and Mrs. J. Fox, of Kenosha, were visitors on Saturday evening of Mr. and Mrs. William Kavanaugh.

Mr. and Mrs. Elmer Fleming and Dean, of Burlington, and Earl Elfers, of Rock Lake, were Sunday visitors of Mr. and Mrs. David Elfers.

Mr. and Mrs. David Elfers called on Mr. and Mrs. Frank Marzahl, of Richmond on Sunday evening. Mr. Marzahl who was recently injured in an automobile accident, is progressing favorably.

## WILMOT

Mrs. G. W. Lewis is spending an indefinite stay at Amarilla, Texas, with her brother.

Laura Lee Lewis spent the weekend at Madison with her brother, Wilbur.

Mrs. Floyd Zarnstorff and Marjorie Zarnstorff spent Sunday with Mr. and Mrs. Frank Zarnstorff, Sr.

Mrs. Nick Fassel entertained the Jolly Eight Wednesday evening.

Mr. and Mrs. Frank Zarnstorff, Sr., spent Sunday evening with Mr. and Mrs. Frank Zarnstorff, Jr., of Richmond.

Mr. and Mrs. Gust Neuman were Sunday dinner guests of Mr. and Mrs. Matt Thom, of Schaumburg.

Grace Carey returned Thursday from the Milwaukee hospital.

Mr. and Mrs. Elmer Rasch and family were Sunday dinner guests of Mr. and Mrs. George Baker, of Pell Lake.

Mr. and Mrs. Freddie Mauser and family, of Zion, were Sunday dinner guests of Mr. and Mrs. Ervin Rasch.

Mrs. Winn Peterson spent Wednesday at Kenosha with Mrs. Anthony Sebens.

Mildred Anderson, of Milwaukee, spent the weekend with Mr. and Mrs. Marlin Schnurr.

Ray Wertz returned Sunday from the St. Therese hospital in Waukegan.

Mr. and Mrs. Ronald Shotliff spent Sunday with Mr. and Mrs. Stanford Hiede, of Kenosha.

Florence McDougall was a Sunday dinner guest of Mr. and Mrs. Gilbert Runkel, of Wheatland.

**WED IN RICHMOND**  
**TO LIVE IN WILMOT**

In the Lutheran church at Richmond, Ill., Miss Mary Lou Buchert, daughter of Mr. and Mrs. Otto Buchert, Richmond, and Harold Pacey, son of Mr. and Mrs. Cyril Pacey, Wilmot, Wis., were married in a 2:30 o'clock service Nov. 12. The Rev. John Carlson officiated in the presence of close relatives.

With her navy suit the bride wore a corsage of red roses and white mums. Her attendant, Mrs. Ronald Shotliff wore a pink suit and burgundy carnations. Ronald Shotliff was best man. Following dinner at Fred Meyer's at 6 p. m. the couple received guests at Powers Lake pavilion, relatives and friends were from Richmond, Harvard, Leaf River and Chicago, Ill., Wilmot, Salem, Milwaukee, Slades Corners, Sturtevant and Kenosha. They will live in Wilmot.

The Wilmot High School Carnival was a huge success. The king and queen of the carnival were Bob Rudolph and Marilyn Schultz.

Beverly Frank and Rose Schenning attended the F. H. A. program at Rochester Saturday.

Mrs. Donald Brown entertained

twenty young folks Sunday evening to a birthday party for Phyllis Ehler.

Herman Ehler, Mr. and Mrs. Peter Van Slochteren and Roger, of Bristol and Flavia Ehler were Sunday dinner guests of Mr. and Mrs. Herman G. Frank.

Mr. and Mrs. Jack Morrison, of Chicago, spent a week with Mr. and Mrs. John Ehler.

Mr. and Mrs. Herman G. Frank and Richard spent Saturday evening with Mr. and Mrs. Ernest Otto of Waukegan.

Mr. and Mrs. John Ehler accompanied Mr. and Mrs. Jack Morrison to Kenosha to visit Mr. and Mrs. Dean Ehler and son, Dean, Jr.

Mr. and Mrs. Elmer Schultz, of Pell Lake, Mr. and Mrs. Dwaine Ehler, of Burlington, spent Sunday with Mr. and Mrs. John Ehler.

Mr. and Mrs. George Feldkamp and Bruce, of Salem, spent Sunday with Mr. and Mrs. Cyril Pacey.

Paul Schmalfeldt, of Kansasville, spent Sunday with Mr. and Mrs. Paul Ganzlin.

## MILLBURN

Rev. L. H. Messersmith has chosen "Trying to be Thankful" as his topic for the sermon Sunday, Nov. 21. The offering will be given to the Committee of War Victims and Reconstruction.

The Men's club held the regular meeting at the church Monday evening. Motion pictures "The Logger" was shown.

At the meeting of the Pilgrim Fellowship Sunday evening, the charter was presented to the president, Johanna Cobb, with an impressive candlelight service. The entire program was recorded by the Webster Wire recorder for use in future meetings.

Mr. and Mrs. H. M. Johaningsmeir of Plainfield, spent Saturday and Sunday at the D. H. Minto home.

Rev. and Mrs. L. H. Messersmith drove to Oregon, Ill., on Armistice Day and visited their nephew, Dick Messersmith, who is attending Oregon Bible college.

Burial services were held at Millburn Cemetery Monday afternoon at 3 o'clock for J. Frank Meyer, late of Pasadena, California. Funeral services were held at funeral home, Austin Blvd., and Lake St. Monday at 1 p. m.

Mr. and Mrs. W. C. Upton and Mr. and Mrs. Robert Denman and daughter, Cheryl, spent Sunday with Mr. and Mrs. F. C. Semrow in Milwaukee.

Mr. and Mrs. Vernon Stahnke, of Champaign, spent the weekend with the latter's parents, Mr. and Mrs. Leslie Bonner.

A district meeting of four Home Bureau units including Antioch, Avon, Pleasant Hill and Millburn units was held at Millburn church Tuesday afternoon, Nov. 9, with 100

members, guests and several County officers present. Cake and coffee was served at 1 o'clock by hostesses from the various units. A humorous skit was presented with members from each unit taking part. Mrs. Helen J. Volk, county Home adviser, gave the lesson on Glassware for the home, illustrating her points with posters and beautiful glassware.

Miss Josie Mann was a guest of Miss Margaret Gilbert, in Waukegan, from Wednesday until Sunday. Mr. and Mrs. A. C. Grant, of Edison Park, were recent callers at the O. L. Hollenbeck home.

Mr. and Mrs. Tom Cosgrove, of Chicago, Mr. and Mrs. Jack Neahous, of Antioch and Mr. and Mrs. Oscar Neahous, were dinner guests at the Gus Christiansen home at Union Grove Sunday in honor of the latter's 47th wedding anniversary.

Mr. and Mrs. Will Bonner, of Grand Ave., were honored at a family party at the home of their son, Roy Bonner, Tuesday evening, in honor of the 37th wedding anniversary, with 19 relatives present.

Harold Bonner, of East Lansing, Mich., spent Saturday and Sunday with his parents, Mr. and Mrs. Will Bonner.

W. C. Upton, as secretary of Northwestern Veterans Association, is spending three days at Omaha, Nebr., this week.

Two hundred relatives and friends witnessed the marriage of Miss Thelma Clark, daughter of Mr. and Mrs. Harley Clark and James B. Bonner, son of the Robert Bonner's, of Kansasville, Wis., which took place at Millburn church Saturday, Nov. 13, at 2:30 o'clock, with Rev. L. H. Messersmith officiating. Weekend guests at the Clark, Walter Fountaine and Raymond

Hauser homes after attending the Clark-Bonner wedding were Mr. and Mrs. Ira Beebe, of East Chicago, Mr. and Mrs. Larry Bonner and daughter, of Attica, Ind.; Mr. and Mrs. Louis Lohmeyer and Velma Turnpaugh and Patsy Bonner, of Williamsport, Ind.; Mrs. Goldie Turnpaugh, Mr. and Mrs. Eugene Lohmeyer, Mr. and Mrs. Delmar Lohmeyer and Mr. and Mrs. Dwight Lohmeyers were overnight guests

at the Earl and Ernest Turnpaugh homes at Kansasville, Wis.

Mrs. May Lucas and her brother, Elmer Odom, of Libertyville, left Monday for a visit with relatives in South Carolina and Tennessee.

## How Birds Digest Food

No species of bird has teeth. A bird's food is swallowed without chewing and ground by gravel in the gizzard.

## World's Largest Coal Mine

Largest coal mine in the world is located at West Frankfort, Ill. This city has adopted as its slogan, "In the Land of Old King Coal."

## Washington's Teeth

George Washington's false teeth fit him so badly that it sometimes was difficult to understand him.

## Fence Post Treatment

If fence posts are cut and peeled, treat them with coal-tar creosote or pentachloropheno before using them as replacements or for new fences.

## Income From Grass

North Dakota's agriculture still depends on grass for a big part of its income, despite high returns from grains and other cash crops.

Wouldn't it be fun to double-cross the weather on cold winter nights? You'd sleep right through without getting up to hunt for extra blankets or waking to pull one from the foot of the bed. With an electric blanket or comforter you can blissfully ignore the thermometer... open the windows wide and slip into a bed already warm.

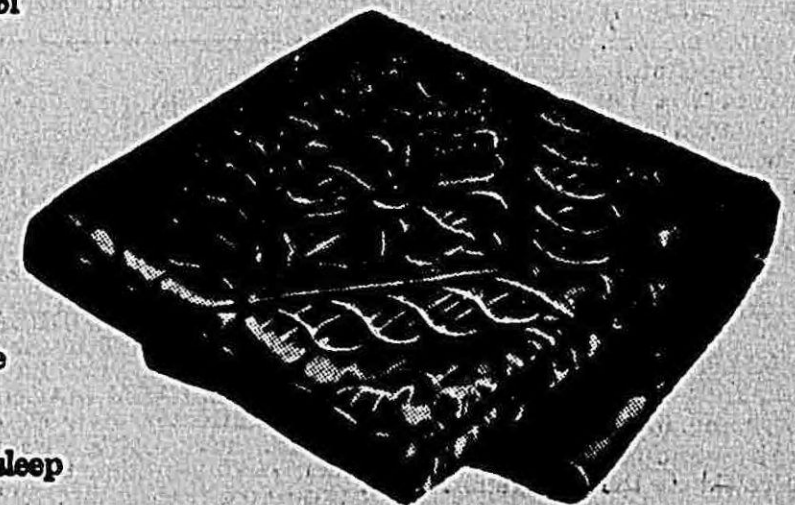

Even mounds and mounds of ordinary blankets only insulate from the cold... but an electric blanket or comforter produces just the right amount of warmth no matter how the temperature shifts. You set the automatic control only once a season—from then on the electric blanket adjusts automatically to changing room temperatures.

You'll wake refreshed and relaxed. The weight of layers of covers is tiring... one electric blanket or comforter gives you warmth without weight. "Cold spots" are banished, too—your bed is sunny warm all over.

Lovely electric blankets and comforters launder and clean as beautifully as ordinary blankets or comforters. The only difference lies in having only one per bed to launder and store for the summer months—not three or four.

You've been promising yourself a really good night's sleep for a long time... do something about it today. Go to your dealer or Public Service Company and get the details of real sleeping comfort.

General Electric Automatic Blanket—Choice of rose, blue, green and cedar. 72" x 86" big enough for a double bed, price \$39.95.

Washington Electric Comforter—Choice of rose, blue and green quilted satin comforter with non-slip back, removable warming sheet, \$49.95.

\*Including Federal Excise Tax

PUBLIC SERVICE COMPANY OF NORTHERN ILLINOIS

## LAKE VILLA

"Which the Lord Giveth Thee", is the sermon topic announced by Rev. T. E. Rodd for the worship service at the Community church next Sunday morning at 11 o'clock. You are welcome.

At 6:30 Wednesday evening this week, the monthly pot luck family dinner was held at the church dining room, followed by group singing and movies.

On Wednesday, Dec. 1, the Woman's Society of Christian Service will hold its annual Christmas sale at the church basement in connection with a roast ham dinner. Lottie Barnstable is in charge of the kitchen and Helen Weber is in charge of the dining room. Stella Pedersen will have the fancy work table; Chilton Bray, infant's wear. Cora Hamlin, quilts, rugs and cards and Anna Gunnarson the bakery sale. This is the chance to do some of your Christmas shopping. Remember the date, Wednesday, Dec. 1, place the Community church. Serving begins at 5 p. m.

A Junior choir is being formed under the direction of Mrs. Warren Broton and meets at the church each Thursday after school. It is open to boys and girls from third to eighth grades.

Mrs. Harriet Mitchell, of Evanston, spent the past week with Mrs. Florence Kerr at the Wm. Weber home while Mr. and Mrs. Weber visited their daughter, Sue at Carleton college near Minneapolis.

Mrs. Ruth Schumacher and her mother, Mrs. Church, who live on the northside of Cedar Lake, attended the funeral of a friend at Bloomington, Ill., on Monday.

Mr. and Mrs. Windsor Dalgaard, of Antioch, moved last week to Mrs. Ellen Schneider's home on Grand Ave. They have recently purchased the Peterson grocery and market and take possession soon when Mr. and Mrs. Peterson go to Florida for a well earned vacation. We welcome the Dalgaard family to our village.

Cedar Lake Camp Royal Neighbors, 37 in all, enjoyed a roast turkey dinner at the Village hall last week Wednesday afternoon in celebration of the sixtieth anniversary of the founding of the Order. District Deputy Gladys Ames, of Gurnee, was a guest, and one of the members, Elizabeth Davis, of Grass Lake was honored with a birthday card shower. Mrs. Ida Ahlander, who had been ill, was remembered with a gift.

Mrs. Junior Tweed was honored guest at a shower at the L. J. Tweed home at Monaville last Thursday afternoon. The afternoon was spent at cards and the honored guest received many beautiful and useful gifts. Refreshments were served at the close of the afternoon.

The children of grades 5 and 6 of the Lake Villa school, 60 in all, went to Chicago by bus last Friday in charge of their teacher. They visited the Field Museum and spent a most enjoyable day.

Mrs. Frank Hamlin left Thursday for New York City to visit her daughter, Mrs. A. L. Jennings, and family, who welcomed a baby daughter to their family last week Friday.

Paul Avery, Sr., Paul Avery, Jr., and Eugene Sheehan were Chicago business visitors on Tuesday last week.

The Lake Villa Community Men's club celebrated "Big Brother Day" last week on Tuesday by taking high school boys and girls to interesting places to help them decide on future businesses and careers. Many went to Chicago, some to the Merchandise Mart, publishing houses and restaurants, others went to radio stations and appeared on Dinner Bell hour on WLS at 12:30, one group went to Waukegan to see the doings at the Court house and visited the jail and offices while others were taken by local business men to places of business nearer home. All were back at the gym at 7 o'clock to enjoy the dinner for the Men's club, served by W. S. C. S. assisted by the Halcyon club. The Girl Scouts in charge of Mrs. Lee Meinersmann also assisted in the serving of the meal and had a good time.

Mrs. Walter Sorenson entertained Mrs. Inga Swanson, of Glenwood, Ark., her daughter, Mrs. Ruth Poland, of Waukegan, Mrs. Marie Hamlin, Mrs. Mary Nelson, Mrs. Georgia Avery and Mrs. Cora Hamlin at a luncheon at home at East Shore Gardens, Fox Lake, on Monday. Mrs. Swanson and Mrs. Poland, who were guests of the Frank Hamlin family Sunday night left Wednesday for the Swanson home in Arkansas after a very pleasant visit with her friends and her daughter here for the past six weeks.

Mr. and Mrs. Paul R. Avery, Sr., held open house last Sunday afternoon and evening in celebration of their fortieth wedding anniversary and also to celebrate the completion of their new home on the north shore of Cedar Lake, into which they have recently moved. Guests were present from Antioch, Gurnee, Grayslake, Waukegan, Deerfield and Lake Villa, and included relatives, former school friends and more recent friends. Their son, Paul, Jr., and his wife, and their

daughter, Mrs. Eugene Sheehan, of Antioch and her family were present to assist in entertaining their guests and their granddaughter, Nancy Sheehan was in charge of the guest book. The house was decorated with many flowers, the gifts of friends and relatives. There were also other gifts. Cake, cookies and coffee were served during the afternoon and evening. They were married at Oak Park on Nov. 14, 1908 and have lived in Lake Villa ever since, as Mr. Avery has been in business, beginning in partnership with James Kerr and now has a successful business established in plumbing and heating on Cedar Ave. They have the best wishes of a host of friends for many more years of wedded happiness.

## "ANOTHER THORP SALE" AUCTION

SULLIVAN and RUSSELL, Auctioneers

Haisma and Kober, Auctioneers Wisconsin Sales Corp., Clerk

## Colds May Be Measles

While children are the usual victims, adults can contract measles. When they do, they become very ill. Measles has the appearance of a simple cold when it strikes. There is cough, sneezing, runny nose and fever of 101 or 102 degrees, sometimes even higher. Persons afflicted with measles are very sensitive to light. Their eyes often give forth a discharge and should be washed frequently with boracic acid solution.

## Motor Vehicle Revenues

Collections for all states for motor registration taxes increased 16.8 per cent during 1947, with revenue totaling \$516,261,000 compared to \$441,910 during 1946.

**Assassination of Lincoln**  
On April 14, 1865, five days after the close of the Civil war, Abraham Lincoln was assassinated. Vice President Andrew Johnson, a Union Democrat, became the chief executive. He continued members of Lincoln's cabinet in their posts.

**Potential Pastures**  
Many farms have areas on them which are overgrown with brush and briars. These areas contribute little or nothing to farm income. If cleaned up and properly treated, however, they will produce good pasture.

## Telephone Co. . . . .

(Continued from page 1.)  
connection charges and miscellaneous items of equipment.

On the shorter distance station-to-station calls which were increased in 1947, no rate increase would apply; others not raised before would generally be upped 5 cents, and the initial talking period on 15, 20 and 25 cent toll calls would change from five to four minutes.

There would be no increase on calls to any points outside Illinois, or to Illinois points beyond 65 miles.

The Company plea to the Commission was signed by G. K. McCorkle, president, and asked for hearings, without unnecessary delay. "The Company has delayed filling these rates as long as possible," McCorkle states. It presents them now only after the actual operating results demonstrate the clear need for that action and its urgency. Its action is based on fact, not estimate. The facts herein set forth are well known to the Commission, as a result both of regular and detailed reports to it, and of checks made by the Commission and staff. . . .

The Bell Company pointed to the sharp rise in cost of operation since 1940, which has been at a faster rate than income. In the petition's words, "Annual operating payroll has increased about \$76,000,000 since 1940, or more than 184%, and its other expenses, on an annual basis, have increased about \$35,000,000, or 84%." The Company adds that the rise in revenue during this same period has been at a much slower rate.

The result of continued inflation, according to the Company statement, is that "present return on plant investment, after giving effect to the third round of wage increases, is at a lower rate currently than it was in 1946. . . .", when Bell applied for its last increase.

## TABLE OF RATES

## ILLINOIS BELL TELEPHONE CO.

Present monthly rates and the proposed rates in the principal classes of service for Antioch are:

Class of Serv.	Present	Proposed
Rural Residence	\$2.15	\$2.90
4-party residence	2.25	3.00

1-party Business	4.75	6.00
Residence Extension	.60	.75
Business Extension	1.25	1.40

## Hessian Fly, Wheat Destroyer

Whether or not the German mercenaries whom Lord Howe threw against the American colonists in the Revolutionary war were responsible for bringing the Hessian fly to this country in straw to bed their horses is a matter of historical debate. There is, however, no need to debate their presence and their menace to wheat ever since the insect first was discovered near a former Hessian camp site on Long Island, New York, in 1779. Since then this minute, mosquito-like wheat destroyer, known to be of European origin, has moved westward at the rate of a few miles each year, until now, except where controlled, it ravages wheat fields in the more temperate latitudes from coast to coast. It is indeed a strange twist of history that insect immigrants named for former invaders should rise each year to plague farmers.

## Airplane Dusting

A ground duster traveling five miles an hour, applying 20 pounds of dust to the acre in a swath 28 feet wide, covers 1.28 acres a minute and so must distribute 5.60 pounds of dust a minute. If the airplane travels 60 miles an hour, covers a swath of 35 feet, and applies 20 pounds of dust an acre, its equipment must treat 4.24 acres a minute with 84.80 pounds of dust. Speeding up to 85 miles an hour, it must feed and disperse 120.2 pounds of dust over 6.01 acres in a minute, or the dust must be handled at two pounds every second—21.46 times as fast as in the ground machine.

## Gas Leakage

Any leakage of gas, no matter how small, may be dangerous. Although the quantity of gas escaping may appear to be insufficient to cause asphyxiation or explosion, it is never possible to be sure of this without a chemical analysis of the mixture. Hence, a person should never regard an air-gas mixture as safe, and, when even a slight escape of gas is noted, shut off any equipment using the gas and immediately provide as much ventilation as possible.

## Spraying Calls for Caution

Spraying and dusting materials should be stored in closed metal containers away from kitchen food stocks. A respirator should be used when spraying or dusting if material blows back in the operator's face. Fumes can sometimes be dangerous and the body should be kept well covered—do not spray with arms or legs bare. Empty bags should be burned, taking care to avoid exposure to fumes.

## Early Political Difficulties

Difficulties of travel in the early days had political repercussions. President Polk appointed Joseph Lane of Indiana as Oregon's first governor. After a six-month trip he reached Oregon City on March 2, 1849, in time to serve one day of his term—for on March 4 Zachary Taylor became president. However, Lane acted as governor until Taylor found a replacement.

Joseph Leiter, an American wheat speculator, lost 10 million dollars in one day in the Chicago wheat pit—on June 13, 1901.

Inventors were busy in 1908 more patents were issued for butter churns than for any other device.

# SOCIETY EVENTS

## Luster and Lola Badger To Head the O.E.S.

Public Installation Saturday  
Eve., Nov. 20th, at  
Masonic Temple

An impressive open installation ceremony of the Order of the Eastern Star will be conducted by Grand Lecturers, past Worthy Matrons and Past Worthy Patrons of Lake County chapters, Saturday evening, November 20, at 8 o'clock at the Masonic Temple. Phoebe Bowers, a grand lecturer of Waukegan Chapter will act as installing officer; Martha Hunter, past Matron of Antioch Chapter will serve as installing Chaplain; Verna McClure, a grand lecturer of Waukegan chapter installing Marshal; Ralph Jacobs, past Worthy Patron of Waukegan chapter, installing organist. Mrs. Westleigh Carlsen, of Antioch, soloist.

Fred B. Swanson, Past Potentate of Medinah Temple, will give the Ode to the Flag. Oscar Hachmeister, Richard Chapman and Ralph Kinrade, past Patrons of Antioch chapter will serve as escorts.

Lola Badger and Luster Badger will be installed as Worthy Matron and Worthy Patron; Edith Elms, associate matron; Arthur Rosenfeldt, associate patron; Selma Trieger, secretary; Clara Westlake, treasurer; Lois Petersen, conductress; Barbara Wilson, associate conductress; Margaret Gaston, Chaplain; Myrtle Klass, marshal; Harriet Davis, organist; Julia Rosenfeldt, Ada; Bette Heath, Ruth; Roselind Keating, Esther; Dorothea Farm, Martha; Sadie Keeney, Electa; Helen Chapman, Warder; Clarence Heath, Sentinel; Anna Kopriva will serve as soloist for the year, John Gaa, color bearer; Verna McClure, Grand Lecturer of Waukegan chapter, Instructor. Walter and Mabel Solomon are the retiring worthy matron and worthy patron.

Lunch will be served in a beautifully decorated dining room following the ceremonies.

## Mr. and Mrs. H. H. Grimm Observe 50th Anniversary

Mr. and Mrs. Henry H. Grimm of Hickory rd., south of the village celebrated their Golden Wedding anniversary last Sunday with a dinner at which 22 friends with whom they grew up were guests.

The Grimms were married 50 years ago Tuesday but because of convenience the celebration was observed Sunday. Mrs. Grimm was formerly Mabel Boylan, daughter of the late Mr. and Mrs. A. E. Boylan. The wedding was a quiet service at the Boylan home in which the Grimms now live. A daughter, Mrs. George Anzinger, at home, assisted in the reception of guests.

Mr. Grimm a farmer, is well known in this community. He is a member of the Antioch lodge Ancient Free and Accepted Masons. Mrs. Grimm is a member of the Woman's club and has the high regard of many friends who are offering her and Mr. Grimm congratulations on the occasion.

## Woman's Club Hears Talk on Welfare Work In U. S. & Europe

Mrs. Charles Kleinm, a representative of the Child Saving Union, a nonsectarian Welfare organization, told the Antioch Woman's Club members at their meeting Monday of the work carried on by them in the rural districts of America and Europe and calling attention to the great need of welfare work in some of our own states. A donation of six dollars was received from the former Mother's club of Antioch, who were active some years ago.

Luncheon was served by the hostesses Mrs. Myrus Nelson, Mrs. I. L. Breakstone, Mrs. William Brook, Mrs. Arthur Trieger and Mrs. C. F. Pfleger.

## ATWELL FAMILY REUNION HELD SUNDAY

The Atwell birthday dinner and family reunion was held at the William Atwell home at Ivanhoe Sunday. It was the first reunion since before the war. A turkey dinner was served. Guests were: Mr. and Mrs. Charles Wilson, Zenda, Wis., Mr. and Mrs. Arthur Atwell, Mr. and Mrs. Henry Atwell, Mary Atwell, Mr. and Mrs. Fred Nielsen, Freddy and Teddy, Mr. and Mrs. Lloyd Atwell, Lloyd, Jr., Mr. and Mrs. Nathan Beiser and Dickie, all of Lake Villa; Mr. and Mrs. Jack Vanderslop, of Ivanhoe.

## MRS. ROSENFELDT HOSTESS TO BRIDGE CLUB

Mrs. Arthur Rosenfeldt was hostess to the members of her bridge club at her home on Bishop Street, Monday evening. Mrs. Simon Simonson and Mrs. Wm. Keulman won highest scores. Luncheon was served by the hostess following the games.

**METHODIST THANKSGIVING  
SERVICE SUNDAY MORNING**

Thanksgiving will be the emphasis at the worship service of the Methodist Church Sunday morning at 11 o'clock. The Rev. G. R. Tuttle, the minister will bring the message, and the robed choir under the direction of Charles B. Watson will sing, "Praise Ye the Father." A nursery for small children is maintained during the morning service.

**MYF in Charge of Service**  
Members of the Methodist Youth Fellowship led the worship service last Sunday morning at the Antioch church. Bob Kufalk acted as chairman. Bud Cardiff read the Scripture; Harold Wilson led the Responsive Reading, and Gail Deitrick gave the prayer. Jane Hunter explained the MYF emblem which was on display in the sanctuary. Mr. Tuttle spoke on the subject, "Follow Thou Me".

Mr. and Mrs. Irving Elms spent Monday evening in Chicago.

Miss Jeanette Badger, of Chicago, and her fiancé Don DelCamp, of Maywood, spent the weekend at the home of Mr. and Mrs. Luster Badger.

## Church Wedding Unites Thelma Clark and James B. Bonner

Millburn Congregational church was the scene of a beautiful wedding at 2:30 o'clock Saturday, Nov. 13, when Miss Thelma Clark, daughter of Mr. and Mrs. Harley M. Clark, of Millburn, exchanged nuptial vows with James B. Bonner, son of Mr. and Mrs. Robert J. Bonner, of Kansasville, Wis.

Preceding the ceremony, nuptial music was furnished by Donald Albright, of Rochester, Wis., who also accompanied Frank DeYoung as he sang "Because" and "The Lord's Prayer".

The double ring ceremony was performed by Rev. L. H. Messersmith before the altar which was decorated with lighted candelabras and baskets of Chrysanthemums.

The bride who was given in marriage by her father, wore a gown of cream satin with lace bertha and bustle effect on skirt with full train and finger tip veil and carried a bouquet of white carnations with an orchid in the center.

Preceding the bride to the altar were her three sisters, Mrs. Clayton Engh as matron of honor and Mrs. Walter Fountaine and Mrs. Raymond Hauser as bridesmaids. The matron of honor wore a gown of gold taffeta with matching hat and mitts and carried rose chrysanthemums, while the bridesmaids wore identical dresses of green taffeta with matching hats and mitts and carried bronze mums. May Louise Turnpugh, cousin of the bride, in floor length dress of rose taffeta acted as flower girl while Jimmie Hauser, nephew of the bride, served as ring bearer.

G. Robert Bonner, brother of the groom served as best man and the ushers were Clayton Engh and Howard Bonner.

The bride's mother wore a green crepe dress and Mrs. Bonner chose a gown of fuchsia crepe and each wore a corsage of yellow and white carnations.

A reception for 200 guests followed in the church dining room with young ladies of the Mylo club in charge of serving. Miss Patricia Arney, of Hinsdale, poured; Mrs. Russell Doolittle, of Antioch, was at the punch bowl; Mrs. G. Robert Bonner, of Kansasville, served the bride's cake and John Clark, brother of the bride was in charge of the guest book. The couple left for ten days' honeymoon trip through southern states and will be at home on the Bonner farm at Kansasville, Wis., where the groom is engaged in farming.

**Methodist Church Given  
Movie Projector In  
Memory of Mrs. Richards**

The Antioch Methodist church was the proud recipient of a new Bell-Howell sound motion picture projector this week. The projector was the gift of Charles F. Richards in memory of his wife Mabel.

A committee consisting of M. C. Cain, Richards, Bernard Guillaume and Mrs. George Good aided in the selection of the new projector. The new visual education equipment will be used by the church school, the MYF, the Woman's Society, and for various church functions such as Family night.

The new projector will be introduced for the first time at the December Family night, Tuesday, Dec. 14. At that time an outstanding motion picture "Beyond Our Own" will be shown.

**MRS. SMITH CELEBRATES  
BIRTHDAY, WITH PARTY**

Mrs. J. C. Smith, of Grass Lake, was guest of honor at a surprise birthday party, Nov. 11, when the Jolly Twelve Pinocchio club gave her a party at her home. Pinocchio was played and card prizes were awarded to Mesdames Erich Krieske, Phil Blanski, Frederick Sommers, and William Dunworth. Cake and coffee were served following the games.

**MR. AND MRS. MORTENSEN  
PARENTS OF DAUGHTER**

Mr. and Mrs. Kenneth Mortensen are the parents of a daughter, "Cynthia Merry", born November 9 at Condell hospital, Libertyville.

Mrs. J. W. Woods attended a surprise dinner at the home of Mrs. George Belden Tuesday evening and spent Wednesday with friends in Chicago.

Mr. and Mrs. Andrew Harrison, of Portland, Oregon, arrived in Antioch last week for a visit with relatives and friends. The Harrison's are former residents of Antioch.

Mr. and Mrs. Westleigh Carlsen had as guests Sunday Mr. and Mrs. Harold Carlsen of Evanston and Mr. and Mrs. Ernest Franklin, of Des Plaines.

## MISS FRANCES ZIMMERMAN TO BE MARRIED SAT., NOV. 20

Miss Frances Zimmerman, daughter of Dr. and Mrs. L. John Zimmerman, will be married to Mr. Walter Grant Prutzman, of Pennsylvania, Saturday, the twentieth of November, at four o'clock at St. Ignatius Episcopal church, Antioch. The Rev. E. William Strauser will officiate.

## ANNOUNCE ENGAGEMENT OF DAUGHTER

Mr. and Mrs. John Delaney, 7415, 37th Ave., Kenosha, Wis., announce the engagement of their daughter, Alice Louise, to Mr. Edwin Charles Turner, son of Mr. and Mrs. Fred Fenim, of Racine, Wis. The wedding date will be announced at a later date.

## R. N. A. CARD PARTY NOV. 23

Members of the Royal Neighbors of Antioch will hold a public card party at St. Ignatius Episcopal hall, Tuesday evening, November 23. Bridge, 500, and pinocle will be in play, card prizes and refreshments.

## PARENTS OF SON

Mr. and Mrs. Gerald B. Mallmann, of Bristol, Wisconsin, are the parents of a son, "Darrow John," born Nov. 10, at the Evangelical hospital, Chicago. Mr. Mallmann is an employee of Burgess Battery Company.

Mrs. Ruth Mahar, of Youngstown, Ohio, is spending this week with Mr. and Mrs. Luster Badger at their home at Channel Lake.

## MR. AND MRS. REEVES PARENTS OF DAUGHTER

Mr. and Mrs. Wesley Reeves, Jr., have named their little daughter "Paula Kay". Paula was born Saturday, November 13, at St. Therese hospital, Waukegan.

## MRS. ROBLIN GUEST OF HONOR AT STORK SHOWER

Twenty-seven guests were present at a miscellaneous stork shower and dessert luncheon given in honor of Mrs. Leonard Roblin, Thursday afternoon, at the home of Mrs. Frank Roblin, Mrs. Albert Christensen, of Waukegan, was assistant hostess. The afternoon was spent in playing buncos. Mrs. Roblin received many lovely and useful gifts.

## REBEKAH CARD PARTY FRI., NOV. 19

Members of Lakeside Rebekah Lodge, Antioch, are sponsoring a public card party Friday evening, November 19, at the I. O. O. F. Hall. 500, pinocle and bridge will be played. Refreshments will served. Card prizes.

Robert Belter, who suffered a bad injury, when falling from a scaffold some time ago, is recovering at the home of his aunt and uncle, Mr. and Mrs. Frank Dibble. Evan Miller, of Chicago, was the guest of Mr. Belter at the Dibble home Sunday.

Mrs. Myrtle Stowe was taken to St. Therese hospital Monday evening and will remain this week for observation.

WE DELIVER

### George Swenson Sent To National F. F. A. Meeting

George Swenson of the Antioch Township High school was one of four Lake county Future Farmers of America who were privileged to go to the national convention in Kansas City this week.

Boys from Antioch, Warren High, Wauconda and Elia Township High school made the trip. The Elgin Fair association supplied a bus that took the boys and provided part of their expenses. The local chapter provides the rest.

### Millburn Masons Will Have Fiesta in Addition To Annual Turkey Dinner

Millburn lodge of Ancient Free and Accepted Masons will have a Fiesta this year in connection with its annual famous turkey dinner Saturday evening.

The Fiesta will open at 4 p. m. at the Masonic hall with a sale of fancy work, baked goods and candy. There will be fortune telling and other forms of entertainment.

Serving of the turkey dinner will start at 5 p. m. and last until all are served. A clown will be on hand during the evening to keep the crowd in good humor if not in an uproar.

Profits from the event will go to the Masonic building fund, P. W. Anderson, chairman, said.

### Movie on Stock Exchange

The Lions club will meet at Steitz' resort, Bluff Lake Monday evening. The publicity director of the Chicago Stock Exchange will show movies and give a talk showing the operation of the exchange.

### Gold Star Mothers Honored At Tea

Mrs. Clarence Heath assisted by Mrs. O. S. Klass entertained six Gold Star Mothers at a tea at the Heath home Wednesday. Those present were: Mesdames Mary Mann, Nellie Hanke, L. C. Scott, Edward Knickelbein, Myra Randall and Clara Kelly. Mrs. Carl Carlson and Mrs. Marie Edelman were unable to attend. Mrs. Lucy Himens poured.

### C. L. Kutil Recognized At I. A. A. Banquet for Long Years of Service

C. L. Kutil was given recognition for his more than 25 years of service as a teacher of vocational agriculture Wednesday evening at the annual banquet of the Illinois Agricultural Association at the Sherman hotel, Chicago.

Forty vo-ag teachers and farm advisers from various parts of the state were given certificates of award for their long and valuable service.

Mr. Kutil, a resident of the State Line rd., and a teacher in the Antioch Township High school has received recognition on several occasions for his many years of teaching.

### Exchange Teacher Tells P. T. A. of British Schools

Stanley Tomkovick, Waukegan Township High school teacher, who served as an exchange teacher in England, gave the Parent-Teacher association an interesting talk in its meeting Monday night.

He compared the English form of education with the American system.

The Antioch Grade school band under the direction of Hans von Holwede furnished the music. Mrs. Robert Mann, second grade room mother assisted by Mrs. Vern Barnstable and Mrs. Irene Hnatt served refreshments.

The P. T. A. voted to furnish the fruits and nuts for the school children for Christmas.

Mr. and Mrs. Alonzo Runyard, Mrs. Mary Runyard and Miss Mae Setek attended the Junior Class play at Palmyra high school at Palmyra, Wisconsin, Wednesday evening. Miss Billie Runyard directed the play entitled "By Any Other Name."

Mr. and Mrs. Harold Sullivan and daughter, Barbara, of Sommers, Wisconsin, called at the home of Mrs. Frank Dibble Sunday.

### Sulfur Saves Lambs

Sulfur in lamb rations has been proved effective in protecting lambs against enterotoxemia, an affliction also known as "overeating disease." Various amounts of sulfur were fed to three lots of lambs. Death losses from enterotoxemia ranged from less than 1 per cent in the group receiving the heaviest dose, to approximately 6.5 per cent in the lot receiving the lightest dose.

### When Idaho Was Young

For the first theatrical production in Idaho territory, "William Tell," two men had to travel 46 miles to secure fiddle strings for use in the musical numbers.

### Plenty of Water

Water—a mineral—is the most plentiful compound substance known on earth. It is relatively a very stable substance. Little "new" water is ever formed and little "old" water is ever destroyed.

### "UNDESIRABLE ALIENS"

### High School Bowman Shoots His Venison

Marvin Jefferson, Jr., foster son of Mr. and Mrs. Arthur Lippert of Lake Villa, was one of the few fortunate bow-and-arrow hunters only in Wisconsin. Most seasons only about five deer are shot by the exponents of the old method. In the whole of Wisconsin. The bow and arrow season is opened for about two weeks, just prior to the regular hunting season.

Since the effective range of arrows for big game is only about 40 yards, hunters who use the equipment must be real hunters with ability to get within range without startling the deer.

Marvin brought the 10-point buck down near Crivitz, Wisconsin, and made the killing shot from a distance of about thirty yards. The deer weighed in at 200 pounds and was shot with an Osage orange bow of 55 pound pull. Marvin is a student at Antioch Township High school.

### Attend I. A. A. Convention

D. H. Minto of Antioch, Walter Sage, of Grayslake, and John Stiehr of Wadsworth were delegates to the annual meeting of the Illinois Agricultural association in Chicago this week. E. E. Elsbury, president of the farm bureau and Ray T. Nicholas, farm adviser attended meetings earlier in the week and the delegates attended the regular meetings of the I. A. A. on Wednesday and Thursday.

### Getchell Named to L. C. H. A.

Douglass D. Getchell, Grayslake, former state commander of the American Legion, has been appointed a member of the Lake County Housing authority to take the place of the late Benjamin Stein who was killed in an automobile accident. Stein's term will extend to next Apr. 9.

### Columbia River System

From headwaters in the Selkirk mountains of southeast British Columbia to its Pacific outlet along the Washington-Oregon border, the Columbia system drains some 300,000 square miles of territory. Half a dozen northwest states, as well as Canada, are involved through a complex network of streams ranging from the Canadian Kootenay to Oregon's Willamette, which meets the Columbia.

### Ice-Free Sidewalks

Without shovels or chemicals the sidewalks in front of certain hotels and buildings are kept free of ice and snow during the worst winter weather. Steam, piped through wrought iron pipe coils embedded in the pavement, warms the sidewalk so snow melts as it falls and ice is prevented from forming.

### Preparing Green Peas

Time is an important factor with peas. Peas lose their flavor very quickly when the sugar changes into starch. Whether you cook, can or freeze them, pick and shell them quickly and hurry them to the range, freezer or jar. To prepare them for the table, simmer the freshly-picked and shelled peas only until they are tender. This takes from 10 to 20 minutes depending on the size and maturity of the peas. Season and serve as soon as possible. Peas are one vegetable that can be served with almost any main course—beef, lamb, pork, ham, chicken, fish or eggs.

### Meat Production

Meat production this year is expected to total about 21 billion pounds, 10 per cent less than last year and the smallest output since 1941. The percentage decrease is not expected to vary greatly among the four types of meat. Beef supplies probably will be down most and veal supplies least. The decrease in total meat output from last year will be most marked in the last quarter when the decrease in the 1948 spring pig crop will be reflected in hog marketings.

### Uncle Sam Says

You don't need New Year's Day to make one resolution which will make your future more secure. In fact, this February day is as good as any day for this resolution: All you have to do is to sign up for the Payroll Savings Plan for buying Savings Bonds. Just write your John Henry once. After that, your money is invested for you every payday automatically. In just 10 years you get back \$4 for every \$3 invested. If you are in a business or profession and the Payroll Savings Plan is not available to you, ask for the Bond-A-Month Plan at your bank.

U. S. Treasury Department

### Stove Pipe Blown Down

The fire department made a run during the rain storm Tuesday evening to Eddie Sorenson's tavern in the Smith hotel at Channel lake. The strong wind is believed to have blown down the chimney, knocking out the stove pipe and scattering burning soot about the room. Other than the dirt from soot, no damage was done.

### More Highway Construction

Construction of highways in rural areas—interrupted during the war—is resuming on a major scale. Nearly one-fifth of state costs were spent on roads in 1947-48. Highway purposes accounted for \$1,500,000,000, or nearly 19 cents out of every dollar of state spending. Much of this total was for capital outlay, to which 666 million dollars was devoted. This compares with 300 million dollars in each of the three preceding years.

### Car Prices vs. Dairy Prices

Dairy and poultry farmers paid substantially less for their new 1948 automobiles than they did for their new 1940 models in terms of milk and eggs. This is true even though the price of automobiles in dollars and cents has increased. In terms of 100 pounds of milk, 522 were required to pay for a new car in 1940 and only 343 for a '48 model last year. Similarly, it took 176 crates of eggs to cover cost of a new 1940 model car compared with 96 for a 1948.

### Magnesium for Lawn Mowers

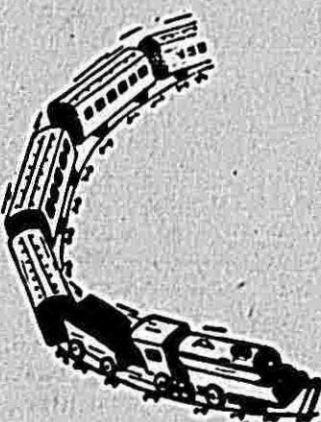

Lightweight, sturdy grasscutters parts are made from magnesium, the world's lightest structural metal. Magnesium sand castings are three times stronger and 75 per cent lighter than the same parts fabricated of other materials. Because magnesium sections can be made thicker without a weight penalty, magnesium parts are sturdy and can resist more handling abuse than can many other materials used in this application.

### Skagit River

Skagit river has played an important role in development of Mount Vernon, Wash. Fur traders came up it to establish a post in 1870. Gold seekers came up it looking for pay dirt. Later it brought in the farmers, loggers and other substantial settlers of early days.

### Blindweed Seeds Hide Time

Seed of blindweed has long been known to remain viable in the soil for many years. This long life has been an important factor in making this weed one of the farmers' most tenacious pests.

## HEALTH HINTS for LIVESTOCK

PREPARED BY  
AMERICAN FOUNDATION FOR ANIMAL HEALTH

### ANIMAL RINGWORM HITS HUMANS, TOO

Ringworm and mange are two good examples of animal ailments often contracted by human beings.

At least one type of cattle mange, a disease due to a tiny mite similar

A case of ringworm.

to the one causing human itch, sometimes infects the hands and arms of persons working around dairy barns. Every year also brings many reports of children contracting ringworm infection of the skin or scalp,

through contact with dogs or cats. Ringworm is caused by a fungus—a sort of cousin to the fungus of "athlete's foot." Another variety of ringworm that infects cattle, especially calves, also readily affects the skin of humans.

In dogs and cattle, ringworm infection is usually recognized by the veterinarian's trained eye. But in cats the external signs of the disease may be hard to detect, especially in lightly-affected animals.

Any symptoms of ringworm in children should be called to the attention of a physician, and any animals with which such children have had contact should be examined by a veterinarian.

Fortunately, most of the varieties of lice and mites affecting livestock and birds do not like the taste of humans and therefore do not make a permanent home of the human skin. In the livestock industry, however, these parasites take a tremendous toll by damaging the health and checking the growth of meat animals, and the farmer who ignores them when they develop in his herd is dissipating a great deal of potential profit.

### LIVESTOCK HEALTH ODDITIES

THROAT OF MILKERS.

#### Use of Silver

American industries last year used 100 million Troy ounces of silver and it is estimated that consumption will be equally high during 1948. Before the war an annual average of around 30 million ounces went into varied manufacturing processes. As industrial use here increased, the demand for silver for subsidiary coinage has decreased or ceased in many countries.

#### Television-Atomic Aid

One of the latest contributions to television and atomic research reported from the electrical manufacturing industry is an electronic microammeter that can measure electrical direct current down to a billionth of an ampere.

#### First Motorcycle

A Belgian put together the first actual motorcycle early in 1900, which creation was followed within a few months by the building of a somewhat similar one in the United States. George Hendree, of Springfield, Mass., was the first American to build a definite motorcycle. Hendree started work on his machine in 1901 and had it ready in 1902, calling it the "Indian motorcycle." The earliest machines were equipped with a crude belt drive.

#### Lawn Tennis

Maj. Walter C. Wingfield, a British army officer, invented lawn tennis, introducing it at a lawn party, in England, in 1873. Its devotees in the United States now number into the millions, despite the fact that it originated as a girl's game and was subjected over a long period to masculine ridicule because "love" is one of the scoring terms used in the sport.

#### Keep Roads Open

Of all the national calamities that could happen to this country, a breakdown of the highway transportation system would be among the most serious. Heavy snows last winter showed the dependency of each community on the highway. Roads and streets must be kept open and in good condition.

#### Local Anesthetic

Thousands of compounds have been studied for anesthetic activity in the last 40 years, but procaine, or novocain, discovered at the beginning of that period, is still probably the most generally used local anesthetic.

#### Mother's Workshop

A bright, colorful kitchen, arranged to save steps and stoops, can save both the time and energy of the homemaker.

we iron out bumps

There's more than one way to take the bumps out of driving. And the easiest way we know is to make sure your Buick's shock absorbers are up to snuff.

That's the way to get a real Buick ride—flat, soft, even, nary a bump or bounce. If your Buick's shock absorbers need servicing, we do it the Buick way. If they need new parts, we use only factory-engineered replacements.

Lakeland Buick

Nippersink Blvd.

Fox Lake, Ill.

#### Create First Turbocar

Two young engineers, Richard Barr and Geoffrey White, are making road trials of the revolutionary invention, the world's first gas-turbine auto engine. The engine, which was shown for the first time at the British Industries fair, now is installed in a specially-built saloon chassis. It is being driven along Britain's roads in preliminary trials that may change the entire auto industry. Their turbocar, which it is hoped to have in mass production by 1950, gives a performance like a gasoline-driven car of 160 h.p. and will have a speed range from one-half to 105 m.p.h. It will run on diesel oil, without vibration or exhaust fumes with no radiator, no clutch and no gearbox.

#### Prevention of Paint Blister

Blistering and peeling of paint on hollow porch columns can be prevented by boring a hole or two in the top and bottom of the column to let the air circulate through the interior of the column, says "American Painter and Decorator" which explains: "Blistering is caused by moisture which works its way up into the inside of the column. Since there is no easy outlet for that moisture, it works its way out through the wood, under the paint, and forms a blister which later breaks and peels off." It is suggested that the holes which are bored in the column be covered with wire screen to prevent insects from getting into and breeding inside the column.

#### Soil Anti-Biotic

A list of anti-biotics produced from soil bacteria and from molds seems to be almost endless and is increasing constantly. While penicillin and streptomycin are the best known, many more are being produced. An English laboratory has brought out aerospornin, which seems to be a specific for whooping cough, typhoid fever and other diseases not touched by penicillin. It is produced by bacteria discovered in the soil of Surrey and Yorkshire, England. This organism has been imported into the United States and probably will become available to physicians throughout the country.

#### Washing Gloves

Be sure leather gloves are labeled "washable" before trying to wash them at home. Kid gloves and some other kinds of leather must be dry cleaned. Many gloves of suede, deerskin, capeskin and pigskin are finished so that they can be washed and are labeled accordingly.

#### Painting Iron Fence

Galvanized iron fence, before painting, should be gone over thoroughly with a commercial pre-treatment compound especially prepared for galvanized iron. If this preparation is not available, vinegar may be used. Then the fence should be thoroughly rinsed with water and allowed to dry thoroughly. A special primer for galvanized iron then should be used. Finally the fence can be painted with a finishing coat of aluminum paint or a house paint.

#### Preservation of Wood

Wood that touches moist earth or wood that becomes wet and cannot dry out quickly sooner or later will rot away. Outstanding wood preservatives to consider for use around the home, farm or small boat include metallic naphthenates, chlorinated phenols and organic mercurials for special purposes. Other wood preservatives, such as creosote, zinc chloride, chromated zinc chloride and numerous proprietary formulas, have been widely used. The newer types of preservatives are not so well known to the public.

#### Women Take to Sewing

Before the war approximately 45 million patterns were sold as compared to 168 million in 1947. Home sewers bought 50 million dollars worth of patterns in 1947. One pattern company reported net sales last year of \$9,319,737, and said that its sewing book has been purchased by 200,000 home sewers and printed in three languages. Sale of yard goods in 1947 represented an increase of 300 per cent over 1940 and the sewing women and girls spent eight million dollars in sewing classes and clinics.

#### Calves Not Anemic

Among farm animals, the calf is least susceptible to nutritional anemia. It is born with a four-month supply of copper and iron in its liver, and before it exhausts this supply it is supplementing its milk diet with feeds that contain these minerals. The pig, in contrast, is born with only enough iron to last a week or 10 days, and if it does not have access to soil or receive a mineral supplement by the end of that period, nutritional anemia is almost certain to develop.

#### Contented Cows

Cows must form pleasant associations with milking for maximum production.

#### Shoals of Shrimp

Shrimp in the Gulf of Mexico are at times so plentiful that the sound of the echo depth machine on a ship fails to act the way it should. The hydrographic office of the navy reports that Capt. W. N. Dawson of the British motor vessel British Virtue on two voyages between Galveston and Corpus Christi found that the device measuring sound echoes did not register when 10 to 15 miles off the coast, where charts showed the depth to be about 11 fathoms. Large quantities of shrimp were found in that locality.

#### Duties of Rope

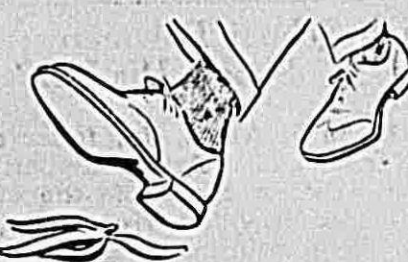

Rope plays a major role in jockeying freight in and out of planes and securing it firmly for the duration of the air voyage. Although web nets are used occasionally, the best available Manila line is used to prevent shifting of cargo, whether it be crates of fish or towl, orchids or automobiles.

### QUICK RELIEF FROM Symptoms of Distress Arising from STOMACH ULCERS DUE TO EXCESS ACID

## HICKORY

Mr. and Mrs. Hairrie Tillotson and Wilbur Hunter drove to Port Washington, Wis., last Friday and Mrs. Tillotson remained there for a visit with her daughter, Mrs. Wm. Hallada, until Sunday.

Mr. and Mrs. William Gerber and son, Jimmie, were dinner and Hallada, at Port Washington, last supper guests of Mr. and Mrs. Wm. Sunday. Mrs. Harie Tillotson returned home with them.

Mr. and Mrs. William Parsons and children, also his mother, Mrs. Dittman, from Melrose Park, were Sunday dinner guests at the Curtis Wells home. Mrs. Mollie Robertshaw, of Melrose Park, returned home with them, after a several week's visit at the Wells home.

Mr. and Mrs. Roy Heydecker, of Waukegan, were Thursday afternoon visitors at the Earle Crawford home.

Mrs. Gordon Wells attended a stork shower Saturday evening in honor of her niece, Mrs. Will Porter, held at the home of the latter's mother, Mrs. Mamie Cannon in Gurnee.

Mr. and Mrs. Ed Miltimore and children, Roberta and Roger, were Sunday dinner guests at the Earle Crawford home.

Mrs. Agnes Stevens visited the Gordon Wells family over the weekend.

## STATE OF ILLINOIS

### COUNTY ZONING NOTICE

#### TO WHOM IT MAY CONCERN:

PUBLIC NOTICE is hereby given to all persons in the Town of Antioch, Lake County, Illinois, that a public hearing will be held on December 8, 1948, at 2:30 o'clock, P. M., C.S.T., in the Village Hall, Antioch, Illinois, on a proposal to vary the terms of the Lake County Zoning Ordinance, or to reclassify by amendment thereto, from the R-4 Residential District, to a B-1 Business District, the following described real estate, to-wit:

Lots 34, 35, 36 and 37 in California Ice and Coal Company's Lake Marie Subdivision, according to the plat thereof recorded in the Recorder's Office of Lake County, Illinois, as Document No. 231690, in Book "M" of Plats, page 36.

As a result of the petition of Lester J. Hybarger, Evelyn B. Hybarger, and California Ice and Coal Company, which is on file and available for examination in the office of the below named Board, Court House, Waukegan, Illinois.

All persons interested are invited to attend and be heard.

Lake County Zoning Board of Appeals

John J. Hogan, Chairman  
Dated at Waukegan, Illinois, this 18th day of November, A. D., 1948 (16c)

**Leaf and Head Lettuce**  
Green leafy garden lettuce is richer in vitamin A than the paler head lettuce and, because it can be served soon after gathering, it also offers more vitamin C. But leaf lettuce does not keep as long as the market head lettuce.

#### Pink Bollworm

Pink bollworm is the most destructive pest of cotton. The worm damages both the boll and the seeds, resulting in loss of cotton yield and reducing the oil content of the seeds.

**Plastic Clothesline**  
Plastics are used frequently in unusual and unthought-of ways. Latest use is for clothesline. It is waterproof and easy to clean, with unusual tensile strength and a very low stretch rate. It also can be tied much easier than most lines.

#### Cornhusker State

Nebraska has for its motto, "Equality Before the Law." The state flower is the goldenrod and the western meadowlark is the official bird.

# Why an increase in telephone prices is necessary

## COSTS UP—EARNINGS DOWN

Prices that are too low—expenses that keep increasing faster than income—tell the story of lower and lower earnings and why we're forced to ask the Illinois Commerce Commission to let us increase the price we may charge for telephone service.

## HERE'S THE PICTURE STORY:

## TWO-THIRDS OF TELEPHONE COMPANY EXPENSES ARE WAGES

Because we sell a highly personal service, two-thirds of every dollar of operating expense goes out for payroll costs. Wage costs have almost trebled since 1940. In that year, our total payroll was \$47 million. This year it will be \$139 million—a \$92 million increase. And the annual effect of recent "third round" general wage increases is not included in the above figures.

Today the equipment behind each new telephone costs more. Copper, lead, poles and building costs have advanced overall more than 60% since 1946, when we asked for our first price increase. This means many more dollars are invested in telephone service—and we must pay a reasonable return for the use of these additional investment dollars. Thus, even without latest wage increases we would still need a price increase.

## WE'RE TRYING TO MEET PUBLIC DEMAND FOR SERVICE—WE WANT TO CONTINUE

As the only telephone company in the field in this community, we have an obligation to provide the best kind of telephone service to everyone who needs it. Since the war, we've added equipment in

every Illinois Bell community—added more than a million miles of wire in cable, built 77 new or enlarged buildings, put in thousands of new central office switchboards—all to meet demand for more or better service.

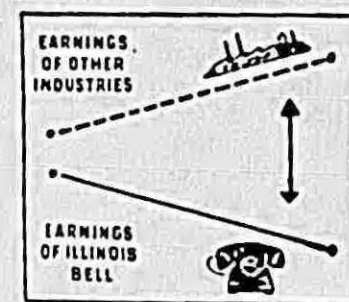

## INVESTORS NECESSARY FOR GOOD SERVICE

We can continue good and expanding service only so long as we have the support of investors who provide the money needed for new and improved equipment. Hence, financial stability is a requisite for successfully meeting our public obligation.

## EARNINGS TOO LOW TO ATTRACT INVESTORS

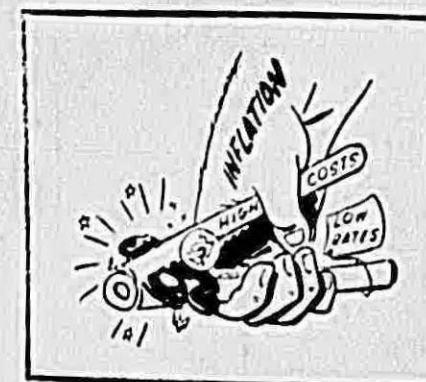

Right now the telephone company is not sharing in the prosperity common to most business. A recent study showed that 440 leading manufacturers, with whom we must compete for the investor's dollar, earn an average several times greater than this company. We do not say we should earn as much. We do say investors make the final choice and that the gap on the chart must be narrowed promptly. Today, with our trend downward, that gap is getting wider.

Currently, our rate of earnings, taking into consideration "third round" wage increases, is lower than when we applied for rate relief in 1946, and we can foresee our earnings again approaching zero.

## PROMPT CORRECTIVE ACTION NECESSARY

Such an abnormally low earnings level seriously threatens the heart and core of good telephone service. To relieve the grip of inflation, and protect the public's telephone service, our prices must advance without unnecessary delay. The increase we need and have requested is small in comparison with today's price levels.

Proposed new rates are on file at your telephone business office. Your service representative will be glad to supply local details.

## The Antioch News

928 Main St. Antioch, Ill.

**Spas in Great Britain**  
Great Britain possesses many spas of international repute where natural mineral water may be applied, internally by drinking or externally in various forms of balneology. The bathing establishments are equipped with the latest scientific devices and only medically certified staffs are employed. The spas have extensive experience in treating cases of gout, arthritis, fibrositis, paraplegia, hypertension, skin diseases, rheumatism, pharyngitis and laryngitis.

**Britain Tops List**  
For the first time in 25 years, Britain became the world's largest passenger car exporter in March. March exports, which numbered 19,100 cars, were 78 per cent of Britain's total passenger car production and 1,000 more than United States' February exports, which made up only a small percentage of U. S. output.

**Top of the Nation**  
Colorado's world-famous Trail Ridge road between Estes park and Grand lake crosses the backbone of the continent in Rocky Mountain National park at 12,183 feet above sea level. As these snowbanks melt, the water west of the hump flows toward the Pacific, that on the east slope starts flowing toward the Gulf of Mexico.

**Aided Television**  
Development of television took a step forward when Paul Nipkow in 1884 introduced scanning. He invented a system involving a rotating disk fashioned with apertures arranged in spirals.

**Honeybee Not a Native**  
The honeybee is not an American native. It followed colonial migration to every part of the United States and Canada. Indians called it the "white man's fly." Colonies are now so thoroughly spread throughout the world that honey and beeswax have a wider geographical range than any other farm crop.

**Care of Tulips**  
When tulips are cut for the house, most of the foliage must be retained on the plants. If the blooms are permitted to finish their display in the garden, then the seed capsules should be removed promptly after the petals fall, severing them just above the top leaf.

**Good News for Motorists**  
Sealed-air puncture-sealing inner tubes for automobiles and trucks again are on the market after an absence of more than six years.

**Highest Yacht Anchorage**  
Grand Lake, Colo., is the highest yacht anchorage in the world. The little town of Grand Lake on the west and Estes Park village on the east are gateway points for Rocky Mountain National Park—a vast scenic and recreational area maintained by the government for the people of the nation.

**Man in the Moon**  
One object that will never sport the "new look" is the man in the moon. We see only one side of the moon because the moon circles the earth and the earth turns in unison with the moon. Millions of years ago, people saw the same "man in the moon" we see today.

**Donations to Charity**  
Seventy-one of the 100 largest manufacturing corporations in the United States gave 16.1 million dollars to charitable and welfare organizations during 1947.

### Public Notice

**NOTICE OF PROPOSED CHANGE IN SCHEDULE**

To The Patrons of the Illinois Bell Telephone Company:

The Illinois Bell Telephone Company hereby gives notice to the public that it has filed with the Illinois Commerce Commission a proposed change in its rates and charges for telephone service in the State of Illinois and that said change involves a general increase in the rates and charges for local exchange services, intrastate toll services and special contract services.

A copy of the proposed change in schedule may be inspected by any interested party at any business office of this Company.

All parties interested in this matter may obtain information with respect thereto either directly from this Company or by addressing the Secretary of the Illinois Commerce Commission at Springfield, Illinois.

Illinois Bell Telephone Company  
By L. G. Bratton,  
General Commercial Manager

## Uncle Sam Says

Want to know a Leap Year proposal you can accept whether you are single or married and have a dozen children? It's the proposal to join the Payroll Savings Plan for buying United States Savings Bonds, or the Bond-A-Month Plan at your bank if you are self-employed. Millions of my nieces and nephews have learned from experience that a growing nest-egg built by regular buying of United States Savings Bonds is the best personal guarantee of a happy future.

U. S. Treasury Department

### Demand for Nursing Service

This is a big country and, compared to most others, a very healthy country, and yet every two seconds someone enters a hospital and increases the demand for nursing service. That's why it's so important to bring about improvement in nurses' working conditions and wages, says American Nurses' association, in order that more qualified young women may enter the profession.

### Utilizing the Shark

From sharks liver comes vitamin A for fortifying poultry and dairy feeds. Much of the rest of the shark goes into fish meal and fertilizer. One large company now maintains a fleet of shark fishing boats, and its shark industries division is a primary supplier of vitamin A concentrates for the food, feed and pharmaceutical fields.

### Copied from Circus

Barnum and Bailey's circus created a sensation on its European tour in the 1880's. According to World Book encyclopedia, the German kaiser was so impressed with the efficiency of the traveling show that he ordered the German army to adopt the circus method of traveling and feeding.

### Automobile Scrappage

Scrappage of motor vehicles in the 23-year period, 1925 through 1947, averages nearly two million units a year, R. L. Polk and Co. reports. However, the scrappage rate in recent years has been greatly reduced. The total in the 22 years was 43,647,088 units consisting of 37,972,954 passenger cars and 5,674,134 trucks.

### Freight Car Standardization

Working parts of freight cars—wheels, frames and springs to support the body, couplers, draft gear and brakes—have been so standardized as to enable repairs to be made regardless of the distance from the owner's headquarters.

### Live Wire Victim

Never touch a person who has been shocked while he is still in contact with the electric circuit unless you know how to remove him from the wire, or the wire from him, without danger to yourself. Have someone immediately call the nearest doctor and the lighting company.

## "WHICH ROAD WILL YOUR LIVESTOCK TAKE?"

**In Memory of Sam Barlow**  
Smallest state park in the United States covers only 25 feet along U. S. highway 50 at government camp on the slopes of Mount Hood, Ore. It was set aside to preserve a monument erected to the memory of Sam Barlow, who built the first road around Mount Hood for covered wagons a century ago.

**First Use of Natural Gas**  
Natural gas was first used in iron working at Leechburg, Pa. In 1947 approximately 257,005,000,000 cubic feet of this gas were consumed by the iron and steel industry.

**Hair Aids Criminologists**  
Strands of hair have aided police in many parts of the country in trapping criminals. However, hairs of individuals do not always differ as do fingerprints, and it is not yet possible to determine the age, sex or race of an individual from the microscopic study of a single hair shaft.

**Friendly Bear**  
A black bear has been making periodic visits to the town of Courdersport, Pa., an Allegheny mountain community. It strolls through side streets, but does no damage and is not molested because of a Pennsylvania law protecting bears.

**Annual Ring of Trees**  
A new ring of wood is added to the outside of a tree each year. This is called an annual ring and the variation in the rate of growth of the cells gives us the spring wood and summer wood so frequently referred to in determining the quality of lumber.

**Renewable Resource**  
Forests, unlike any other natural resource, are renewable, replaceable and, with proper management, everlasting. Like any other crop, trees must be harvested when mature or they deteriorate and lose their youthfulness.

**FIGHT TB Buy Christmas Seals**

**Storage of Raw Meat**  
Store raw ground meat not more than two inches deep in shallow pans to prevent bacterial growth and spoilage. Unless meat is frozen do not keep it on hand more than 24 hours.

**Long Haired Cats**  
Wild Pallas cat of Asia is credited with siring the Persian long hairs—the fancy Dams of the kitty kingdom. As in Egypt, the early cats of the Orient lived royally. Mandarins prized them and rajahs fondled them on silken laps.

**Produce More Honey**  
Honeybees in New England last year produced 40 per cent more honey than the previous year and 19 per cent more than 1945.

**Long Time Between Drinks**  
Camels can drink 12 to 15 gallons of water in half an hour and carry several hundred pounds 300 miles or more without drinking.

**Refrigeration Frost**  
Frost on the freezing compartment of electric refrigerators has no chemical impurities because it is condensed from moisture in the air.

**Telica Volcano**  
Telica, one of the oldest volcanoes in Nicaragua, is 3,500 feet high. It erupted recently and covered nearby cities with volcanic dust.

**Vision of Ducks**  
Ducks have an almost telescopic eyesight. They can focus their eyes for near or far vision.

**Not So Cold**  
Mean temperature of Idaho is 56 degrees, milder by 5 degrees than Ohio and 12 degrees milder than Maine and New Hampshire.

**Deprived of Licenses**  
Nearly 430,000 motorists in the United States were shorn of their driving privileges last year because of traffic law offenses and practices detrimental to highway safety. The number exceeded the 1946 total by 112,000 or more than 25 per cent.

**Assassination of Lincoln**  
On April 14, 1865, five days after the close of the Civil war, Abraham Lincoln was assassinated. Vice President Andrew Johnson, a Union Democrat, became the chief executive. He continued members of Lincoln's cabinet in their posts.
